# APPSPACE

CONTENT & FEEDS

Content for every workplace

Build a comprehensive, company-wide communications program with templates, channels, and feeds.
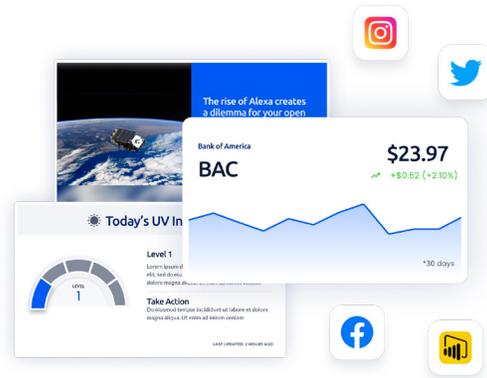

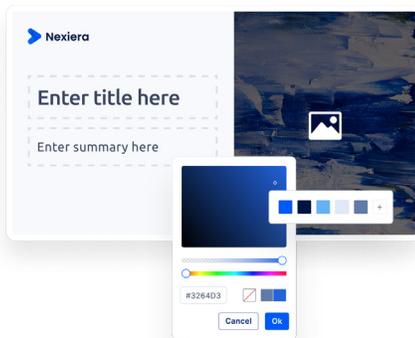

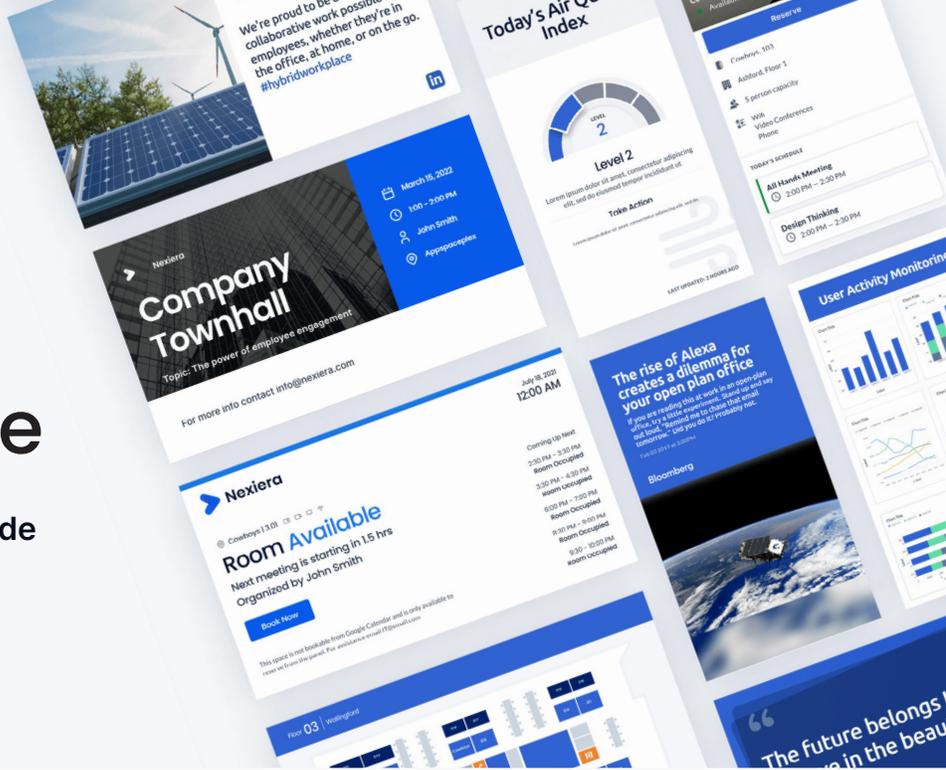

Kick-start your communications with pre-built channels for each department

Get your teams sharing information faster with collections of ready-to-go templates built specifically for each department.

Ensure communications are always on brand

Our library of pre-designed HTML templates helps keep all departmental announcements on brand and makes it easy to share any type of information.

Deliver the right communications to support your goals

Tailor the tone of your communications with a content strategy that balances performance, compliance, productivity, and culture.

Tackle critical compliance issues with award-winning industry content

Our team of content experts tracks the compliance needs of a dozen industries to design and curate content that tackles hot topics in safety, performance, and culture.

Leverage award-winning content to engage all employees

Leverage the expertise of Appspace's award-winning content team to amplify your workplace communications and reach every employee.
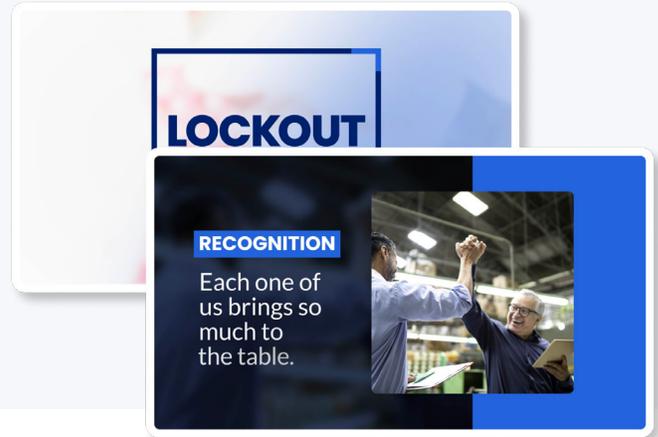

Enterprise Features

Templates

Connect employees and strengthen company culture with brandable templates and design tools.

Stakeholder channels

Communicate more, faster with pre-built templates and channels designed for key workplace communication.

Topical channels

Communicate topical concerns with authority, ease, and speed with ready-to-publish, free monthly channels.

Industry feeds

Reach the whole person with Industry Feeds that balance messages on critical safety topics with morale and culture content.

Third-party feeds

Connect social media accounts, news, and stock feeds to your branded templates and they'll dynamically refresh as the information updates.

Compatible across devices and apps

Templates natively work on computers, phones, and in other apps like SharePoint, Teams, or Slack, making it easy to share information.

It's all part of the Appspace platform

Intranet	Employee App	Digital Signage	Content	Space Reservation	Visitor Management	Wayfinding
