- 20,000 hours maintenance free with filter-less design
- Outstanding picture quality
- Maximum visualisation flexibility

Why NEC Laser Projection

Laser technology has changed projection in many different areas. Versatile projection characteristics like free-tilt and portrait installation as well as unique geometric adjustment allow for simple positioning of the projector, making installation easy and safe setup costs. The Laser light source makes lamp replacement obsolete whilst the filter-free design reduces maintenance efforts to a minimum. With up to 4K high bandwidth processing you get colours which are strikingly more vivid for an even better visual experience.

NEC MultiPresenter

Wirelessly connect up to 16 devices at a time for effortless and seamless presentation delivery. Enable effortless presentation on any Windows, Mac OS, Android or iOS device by simply pairing via a PIN to instantly present and share content with other participants.

NaViSet Administrator 2

Unified remote management software for NEC desktop monitors, large format displays and projectors.

NEC Service Plus

We take the guessing out of the set-up and maintenance. Our customers can concentrate on their business activities, confident that their IT infrastructure is underwritten by the Service Plus promise:

- 5 years warranty extension
- Ad-hoc warranty extension
- De- / re-install service

The Education Advantage

With a long-established focus on education, many of our projectors include exclusive warranties for education users such as a 3 year warranty including the projector lamp (instead of 6 months). We also offer interactive solutions with bundled software to facilitate collaborative learning and to ensure the teacher can control operation even if the remote gets lost.
