

Significant Discounts on Remote Working Devices – From Cinos

If your employees are working from home and need better equipment to collaborate effectively with their peers, now is the time to take advantage of this fantastic offer from Cinos.

For a limited time only, Cinos are offering significant discounts on a range of best-in-class remote working devices from Yealink. These devices have been designed with the hybrid workforce in mind, offering a range of headsets, desk cameras, and soundbars which deliver the outstanding audio and video quality required for remote employees to effectively collaborate with their teams, customers, and partners.

For more information on the products available in this fantastic offer please see below. Alternatively, please get in touch with Neil Lombardo, Country Manager, who would be happy to discuss your requirements.

Believe in Excellence

About Cinos

Formed in 2007, Cinos is an agile and innovative technology provider, specialising in the delivery and integration of audio-visual solutions and managed IT services to a global market.

To build upon our success in the European market, we opened a Paris office in 2020. The move has enhanced our capability to deliver services to clients across the healthcare, manufacturing, contact centre, financial and public sectors. Operations are led by Country Manager Neil Lombardo.
